## The Commonwealth of Massachusetts

OFFICE OF THE COMMISSIONER OF BANKS  
STATE HOUSE, BOSTON, APRIL 1, 1954

*To the Honorable Senate and House of Representatives  
of the Commonwealth of Massachusetts:*

Pursuant to the provisions of General Laws, Chapter 167, section 9, as most recently amended by section 1 of Chapter 592 of the Acts of 1949, I have the honor of submitting to you herewith, the annual report of the Commissioner of Banks relating to Trust Companies and Certain Other Financial Institutions for the year ending December 31, 1953.

In accordance with the amended provisions of the above mentioned statute, a report will be rendered each year embracing a review of pertinent facts, figures and conditions pertaining to all institutions under the supervision of this department. This report will cover a calendar year.

In addition, reports pertaining to particular types of supervised institutions will be submitted each year. These reports, which will include statements of condition and miscellaneous statistical data relating to the institutions individually and collectively, will cover yearly periods ending in the months indicated in the following table:

Co-operative Banks and Savings and Loan Associations	April
Credit Unions	June
Savings Banks and Institutions for Savings	October
Trust Companies and Certain Other Financial Institutions	December

Respectfully,

TIMOTHY J. DONOVAN  
*Commissioner of Banks*

## TRUST COMPANIES

The combined resources of the commercial and savings departments of the 58 trust companies as of December 31, 1953 totalled \$1,544,194,000, a decrease of \$5,668,000 since December 31, 1952.

The total capital funds of all departments of trust companies increased in the amount of \$4,784,000 during the same period and as of December 31, 1953 totalled \$146,537,000 or about 9.49% of the combined resources of their commercial and savings departments. The computation of capital funds includes \$13,186,000 of so-called valuation reserves which for statistical and other reasons are here treated as capital reserves.

The general trend observed in the past few years towards higher earnings is continuing and has actually been accelerated in the operation of trust companies in this state during the past year. Net profits after income taxes, representing the take home pay of the bank, also showed a substantial increase. The ratio of net operating earnings after taxes to the total assets of all trust companies was larger than it has been for the past twelve years.

*Commercial Departments*

The holdings in these departments of U. S. Government obligations suffered a notable decline, to some degree offset by another substantial increase in state, county and municipal obligations. Loans on the other hand were greater in the aggregate by over \$30,000,000, almost one-half of which is attributable to the rapid continuing growth of the Installment Loan account. The decline in government bond holdings and some reduction of the cash position was necessary in order to finance the expansion of the loan portfolio since there was a net decrease in deposits in this department of more than \$7,000,000. This of course meant a loss of liquidity to some degree but cash and U. S. Government bonds still represent the majority of the assets, constituting 56% of the total. This change in the character of the assets, however, has placed the emphasis on earning assets resulting in much better earnings in these departments during 1953 both before and after taxes than trust companies have enjoyed for a great many years. Despite the loss in deposits the number of depositors has increased from 393,248 to 412,692.

*Savings Departments*

The total resources of the 52 savings departments aggregated \$269,201,000, a decrease of \$5,515,000 since December 31, 1952. Certain economies of operation, principally the freedom from state and federal taxation on income, that thrift institutions have enjoyed for many years and lately the treatment accorded to these institutions by the tax laws presently applicable have made it possible for them to pay a comparatively high rate of interest to depositors and to maintain a highly advantageous competitive position. There are now 428,502 depositors, a decline of 3,818 since the end of 1952.

Holdings of U. S. Government obligations reflected a rather substantial reduction. Real estate loans on the other hand increased substantially while Personal Security loans suffered a comparatively sharp decline. Capital accounts, including the Guaranty Fund which represents 59.63% of the total of said accounts and which is applicable solely to losses in savings departments, now aggregate \$20,898,000 and bear a ratio of 8.48% to total deposits. By statute, savings deposits have further protection in the capital stock as well as in the general profit and reserve accounts of the banks.

As additional protection to depositors in both the savings and commercial departments, all but four of the trust companies in this state provide insurance in the Federal Deposit Insurance Corporation whereby the accounts of each depositor are insured in the aggregate amount of \$10,000.

### Trust Departments

The total assets of trust departments as of December 31, 1953 amounted to \$1,745,780,000, an increase of \$92,158,000. Thus occurs a further enlargement of the fiduciary responsibilities that have been entrusted to and assumed by trust companies in this state. In last year's text it was mentioned that in only one year (1933) have the trust departments failed to record a gain in total assets over the previous year's figures. It seems worthy of repetition here, as a noteworthy accomplishment.

### *Rules and Regulations*

There is listed below the regulation of the Commissioner of Banks promulgated on June 15, 1953:—

Investments by commercial departments of trust companies in loans secured by the Federal Housing Commissioner (Administrator) and secured by liens on property located both within and outside of the Commonwealth of Massachusetts.

### CORPORATIONS SUBJECT TO CHAPTER 172A OF THE GENERAL LAWS

On February 2, 1953 the Service Plan Banking Company of Holyoke went into voluntary liquidation under regulations prescribed by the Commissioner, having sold its assets to the Holyoke National Bank as of the close of business January 30, 1953. Thus the number of corporations doing business under the provisions of General Laws, Chapter 172A on December 31, 1953 has been reduced to nine. Total resources of these institutions on December 31, 1953 amounted to \$19,933,000, a reduction of \$161,000, due of course to the aforesaid liquidation

### TRANSMISSION AGENCIES (Others than Banks)

Transmission of money to foreign countries by those holding licenses under Chapter 169 of the General Laws amounted to \$862,388 for the calendar year of 1953.

There are now in force six licenses to transact this type of business. The deposits of customers of these agencies are protected by surety or collateral bonds in the custody of the State Treasurer. Their other assets are not under the supervision of this department.
